

Process assembly Ecofit CPA640

Universal assembly mainly for water and wastewater

**Benefits:**

- Suitable for all standard sensors with Pg 13.5 and 120 mm (4.72") length
- Quick installation and removal thanks to threaded connection
- Various seal materials for perfect adaptation to all kinds of processes
- Cost-efficient possibility of installing analog or Memosens sensors

Field of application: The Ecofit CPA640 is a universal process assembly for fixed installation of any kind of 120 mm sensor (Pg 13.5) in water and process applications (utilities). Its threaded connections and various seal materials enable you to perfectly adapt it to all kinds of processes. Ecofit is the simple, but flexible solution wherever cost-saving is mandatory.
